
DOCUMENTATION

Installation

=====

1. In your PrestaShop administration dashboard navigate to "Modules and Services".
2. On the upper right corner, click on "Add a new module" - a new field will show up in the center of your screen.
3. Click on "Choose a file" and navigate to the directory where you have downloaded this .zip file to. Select it and click on "Open".
4. Press the button that says "Upload this module".
5. Use the search field on the left side to find your new installed module and click on "Configure" to the right.
6. To enable the Pinterest pin widget, switch the first configuration setting to "Yes" and enter your "Pin Widget URL".

Settings

=====

Languages

There are 29 languages to choose from. The language will affect the button text "Save".

Choose between English, Czech, Danish, German, Greek, Spanish, Finnish, French, Hindu, Hungarian, Indonesian, Italian, Japanese, Korean, Malaysian, Norwegian, Dutch, Polish, Portuguese, Portuguese (Brazil), Romanian, Russian, Slovak, Swedish, Tagalog, Thai, Turkish, Ukrainian and Vietnamese.

Go to your module settings and select a language of choice.

Widget Size

This widget module comes in 3 different sizes.

Choose between 236x317px, 345x398px and 600x624px.

Go to your module settings and select a widget size of choice.

Pin Description

The pin description can be removed from the widget.

Go to your module settings and enable the "Remove Pin Description" setting.
